CV

- since 2021 **CTO** at Fjorden Electra AS
Developing the mobile camera of the future. see fjorden.co ↗ for more info.
- 2018 – 2020 **CTO/Co-Founder** at Flighty
An iOS app to track your personal flights, see flighty.app ↗ for more info.
- 2018 **Backend Engineer** at Microsoft
I helped with the transition from the (now retired) HockeyApp to the new App Center.
- since 2010 **iOS consultant**, almost all projects were internal app for bigger companies, let's chat about the details.
- 2013 – 2015 **iOS tutor** at Stuttgart Media University
I taught a course on iOS development for students in their 4 - 6th semester.
- 2012 – 2013 **macOS developer** at fournova GmbH
I built the UI for version 2.0 of Tower (git-tower.com), a Git client for macOS. We used Kanban to plan new features.
- 2011 – 2012 **iOS developer** at CaperWhite GmbH
Projects: DB Navigator, Manufactum, Sportscheck, Plus, Lidl
I worked in small teams of 2 - 3 people where every member was writing front- and backend code.
- 2008 – 2010 **iPhone OS developer** at M-Way Solutions GmbH
Projects: T-Mobile online banking, Merck Catalog
First as a student, then as a junior developer, I worked on the company's first iPhone projects.
- 2010 **Bachelor of Science** in Computer Science and Media from Stuttgart Media University
For my thesis, I built an iPhone app that communicates with custom hardware using the Made for iPhone program at Areus Engineering.
